

## STEPS FOR SELF-EXAMINATION

- 1) First, take off your clothes from the breast part and stand in front of the mirror as in the figure in front, and examine the existence of any change in the breast shape or nipple or the skin.
- 2) Stand in front of the mirror with your shoulders straight and your arms on your hips as in the figure in front, see if there is any of the following changes:
  - Dimpling puckering or bulging of the skin.
  - A nipple that has changed position or an inverted nipple (pushed inward instead of sticking out).
  - Redness, soreness rash, or swelling.
- 3) Now, raise your arms on your head and look for the same changes that mentioned in step (2).
- 4) Next, examine the breast with the palm of your three toed finger as in the figure in front, push in a regular way and try to cover the whole breast especially the part which is behind the nipple.
  - Don't forget to examine the lower part of the armpit with your three toed finger because it is an essential part of breast self-examination.
  - Press the nipple and observe any nipple discharge particularly if mixed with blood.
- 5) Finally, feel your breast while lying down and repeat step (4), put a pillow under your left shoulder, using your right hand to feel your left breast as in the figure in front, so that the breast becomes flat and easy to examine for any lump and vice versa for examining the right breast.

B o r y e a s t

A horizontal banner with a light beige background. It features the sign language alphabet in two rows. The top row shows signs for 'S', 't', 'e', 'p', 'S', 'f', 'o', and 'r'. The bottom row shows signs for 'S', 'e', 'l', 'i', 'e', 'n', 't'. A small dash is positioned between the two rows.

The image shows a grid of 12 rows of American Sign Language (ASL) signs. Each row contains four signs. The signs are arranged in a grid pattern with horizontal and vertical lines. The signs are represented by hand shapes and fingers, showing various configurations such as open palms, closed fists, and specific finger arrangements.
